1 Context

This project arose from the students' curiosity about what some professionals do and the need to provide further information about jobs to develop future professional perspectives. They got interested in a particular job: model. They saw her photo album (book) and wanted to have one like that.

It was done in AEJD, Faro, Portugal.

2 Objectives

Make students answer questions like: Who am I? How do I describe myself? What qualities do I have? What social role do I have?

The Target public are the deaf students.

3 Development of the good practice

When the students were doing the project about the jobs they met a girl who was a model and saw her book. So the teachers decided to make a photo album for the students too. They brought clothes and accessories from home and made a photo session with the students. In the end they made a book with the photos.

4/Evaluation of the good practice

Different areas were worked like Portuguese for Real Life, Personal and Social Autonomy, Workshop of Creativity and Portuguese Sign Language.

Creation of a photo album. It is worth repeating such project.
